Summary

Dedicated Full-Stack Developer with a strong foundation in React, Vue.js, and backend technologies. Proven ability to optimize complex systems, significantly improving performance. Experience in leading projects from concept to deployment, with a focus on creating responsive and user-friendly web applications. Committed to continuous learning and exploring emerging technologies.

Skills

- Frontend: React, Vue.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
- State Management: Redux, Context API
- Backend: PHP, Node.js
- Databases: MySQL, Firebase
- Version Control: Git
- Other: API Integration, Responsive Design, Performance Optimization
- Soft Skills: Strong problem-solving abilities, Effective communication, Team collaboration, Adaptability, Fast learner, Attention to detail.

Work Experience

SOFT-ACE TECHNOLOGIES

Full-Stack Developer | Lagos, Nigeria (Hybrid) | May 2024 - Present

- Led development of Flatshare, a comprehensive web application, demonstrating full-stack capabilities
- Created a MySQL database management system, improving data handling efficiency by 30%
- Built secure authentication using PHP and React
- Optimized API calls with PHP pagination and React infinite scrolling, cutting load times from 5 minutes to 3.1 seconds
- Worked closely with design and backend teams to meet project requirements

SKYQ ENTERPRISE

Web Developer | Lagos, Nigeria | Feb 2024 - Apr 2024

- Developed a responsive web application using Vue.js, boosting cross-device compatibility by 85%
- Integrated Firebase for real-time data sync, enhancing app scalability
- Improved web traffic by 50% through frontend optimizations

JAN BRIDDHI FOUNDATION

Frontend Developer | Remote | Sep 2023 - Dec 2023

- Contributed to a team-developed floating blood bank web app.
- Converted Figma designs into responsive React components.
- Integrated backend APIs, boosting system performance by 35%.
- Helped reduce development time by 20% through efficient coding practices.

Google Developer Student Clubs (GDSC) Solution Challenge

Lead Frontend Developer | Remote | Jan 2024 - Mar 2024

- Led the frontend development for ThriveFuse, a learning platform that increased user engagement by 25%.
- Designed frontend architecture using React.
- Guided team members in React best practices and collaborative coding.
- Liaised with other teams to align the project with educational objectives.

Education

- University of Lagos | B.Sc. Electrical and Electronics Engineering | Nov 2023 - Oct 2026
- HallMark University | A' Level | Sep 2021 - Jul 2022
- Lagos State Model College | O' Level | Sep 2015 - Jul 2021

Certifications

- JavaScript Algorithms and Data Structures (freeCodeCamp)
- Front-end Development Libraries (freeCodeCamp)
- Postman API Fundamentals Student Expert
- Google Developer Student Clubs (GDSC) Solution Challenge Participant
- Responsive Web Design (freeCodeCamp)
- Internet of Things with Raspberry Pi Pico
